When: Thursday, November 9, 2006

Where: Hilton Garden Inn, 14850 Kruse Oaks Dr., Lake Oswego

Time: 8:30 am Registration; 9:00 am – 12:00 Noon Program

Cost: OPA Members:\$65 per person

3 or more OPA Member Participants: \$50 per person

Non-members: \$85 per person

This basic 3 hour class is designed for gas station and convenience store managers who want to learn more about preventing spills and leaks from their underground storage tank (UST) systems. Managers can often be the first at a site to discover a potential problem so it's important to know exactly what you're looking for.

Learn how to use your tank monitor, how to watch for signs of underground leaks, how to prevent spills and overfills during deliveries, what to do in the event of a spill or leak, and how to handle a DEQ inspection.

Note: This is NOT the course to meet the requirements for the DEQ Designated Operator Program.
